

Amodini
Crafting with Care

Style meets Sensibility

“ Furniture must have a personality as well as be beautiful ”

CRAFTSMANSHIP AT ITS BEST

Amodini, established in 2001 is a multidiscipline Interior Designing firm founded on a commitment to client service and quality design. We have wide range of unique Ideas that suit every taste & every budget.

We empathies our clients with our expertise, efforts & well equipped team of Electricians, Plumbers, arpenters, Masons, Painters, Upholsters, Site Supervisors etc. Subsequently Client's time is saved that leads to lots of business Savings to our clients with mutual benefits. Our Products also reflect the same alike Qualities that suit the Celebrities.

Office Workstations

A workstation is an area where an individual performs daily work-related tasks. For example, in an office setting this might include a desk, writing area, computer, and storage area for documents. It is the purpose of the workstation to provide the user with space to carry out their typical work duties. It allows a person to utilize an organized area in order to increase the efficiency of their job tasks. A workstation can include specialized equipment and tools that an employee requires to perform their job duties. These tools and equipment should be placed in an organized fashion within the workstation in order to make them readily accessible to the employee without an undue physical strain. This allows the employee to efficiently perform daily job duties faster and more efficiently. Certain aspects of the workstation can be specifically designed to ergonomically suit a particular staff member, or group of employees. By designing the area to fit a particular person, it can greatly increase that worker's efficiency. Good ergonomic design also helps to ensure the well-being and safety of the staff.

Seating

You spend more time in an office than at home being awake to be honest. For those long hours in the office you need an office chair which is ergonomic. We consider chair to be the most important furniture in an office and if chosen right it can be a blessing. At Amodini, we continuously innovate and test every piece of chair before placing it in your office.

The lumbar support, seat adjustment, arm adjustment, wheel rotation, mesh tensile strength, foam density and chair mechanism are some of the most important components when selecting an office chair. Our chairs are made using best ergonomic practices and duly tested for strength and comfort to make you work those long hours.
